REVIVA LABS The Light Skin Peel is the one, all-natural, non-chemical exfoliant providing immediate improvement in skin texture. Reviva Labs was one of the very first companies to introduce the European concept of exfoliation to America over 25 years ago. Whereas exfoliants such as alpha hydroxy acids take weeks to show results, the unduplicated Light Skin Peel immediately removes dead cells, bringing out the new skin cells below, reviving the complexion without irritation. The 1.5 ounce Light Skin Peel jar retails for \$17.00. For more information, visit us online at www.revivalabs.com or write us at 705 Hopkins Rd., Haddonfield, NJ 08033.

BREATHE EZ™ Snoring adversely affects millions of relationships. If snoring or apnea is ruining your or your partner's sleep, Breathe EZ can help! Most people snore and many suffer from apnea because they have difficulty breathing through their nose. Breathing through the mouth can cause vibration of relaxed tissues, producing the snoring noise. With some apnea, the tongue gets into the act and the airway completely closes. Breathe EZ applies gentle pressure to septum nerves, causing nasal breathing passages to open naturally, so the user can breathe through the nose instead of the mouth. Its reusable, has a money back guarantee and it works!

 Many people suffer from snoring and apnea because they can't properly breathe through their nose.
 Breathe EZ is a U-shaped device made from soft polyurethane. When placed on the septum, it stimulates nerves with gentle pressure, causing the nasal breathing passages to open, so you aren't sleeping open-mouthed and snoring. With Breathe EZ you can have a restful night's sleep and not disrupt the sleep of someone else with loud snoring.
